

## DIG DEEPER WEEK 2

## CHILDREN'S BIBLE CLUBS: REACHING BEYOND THE KIDS

As you're starting to see through Experience India, kids in India are being transformed in big ways! Kids in India who attend Children's Bible Clubs often:

- Get better grades in school thanks to their Bible Club leader's tutoring.
- Start to use better manners.
- Obey their parents at home when they didn't before.
- Start to treat other kids at the Bible Club nicely.
- Take better care of themselves as their leaders encourage them to wear clean clothes and bathe, which many kids in India don't learn at home.

We love celebrating all of this and get excited each time we hear of a boy or girl receiving Jesus as their Savior!

As kids start behaving better, their moms and dads notice. Some boys and girls even start volunteering to help with chores! Parents—and even neighbors—start to wonder why they're acting differently, and they soon discover it's thanks to the Children's Bible Club.

When kids learn songs about Jesus and hear Bible stories in their Bible Club, they're eager to share them at home. They also learn how to pray and ask their Bible Club leader to pray for their families. Little by little, this all helps moms and dads want to know more about Jesus.

**Many times, entire families begin to follow Jesus, all because their son or daughter went to a Children's Bible Club!**

This isn't all. As kids become kind and start to set an example at school, their teachers, friends, and classmates notice. Boys and girls live out the Great Commission as they spread Jesus' love to those around them! As a result, more and more kids want to join a Bible Club, and the ripple effect continues.
